## Testimonial

"Just Salad is a New York City-based fast casual chain with locations globally serving up healthy food at affordable prices with a commitment to becoming a gold standard in the hospitality world.

Partnering with them to **renovate and modernize the brand experience we incorporated SWICK®, a concrete textural wall covering as the focal wall, ensuring a welcoming yet polished atmosphere. We successfully met our goal to create an immersive, family friendly space** to dine comfortably and deliver an aesthetic and casual vibe."
