## Featured Products

**Carved Wood  
Panels**  
Custom

## Testimonial

"We envisioned a large fireplace to anchor the great living and dining rooms. **The gentle curves in the Carved Wood Panels provided a beautiful elegance yet unintentional casual quality creating a modern family setting.** The redwood tones and richly layered texture of this material were a nod to the midcentury elements we wanted to bring in and also provided the feel of the outdoors inside. Always looking for the latest, greatest, newest and freshest materials, **ASI never ceases to amaze us with the number of products to choose from! We've worked with ASI for over 10 years, and the partnership is always fantastic!**"
