Featured Products

**Crossfuse®
Wood Panels**
WPFSN060

Testimonial

"We wanted to create an impactful focal wall that clients would see upon entering. The charred wood-nugget feature wall in the entry brings to mind the coal that many of Fabrikant's gems originate from. The **Crossfuse® Wood Panels from ASI | Architectural Systems Inc. delivered the exact look we wanted for the feature wall and with the panels ready-made, installation was straightforward and simple.**"
